

Project Title

(E-commerce application for classic cars)

- Classic whipz
- Buy the car that your dad used to drive!

Description (problem & solution)

Classic Car Sales Website

Audience

- Car enthusiasts.
- Drivers who need cars
- Car owners selling their car

User Story

AS A driver,
I WANT TO buy a classic car,
SO I can add it to my car collection

AS A classic car owner,
I WANT TO sell my classic car,
SO I can buy new classic car

Acceptance Criteria

GIVEN an e-commerce car application,
WHEN I land on the home page
THEN I am given a list of cars with price, photo, details, comments from other users
and sign in button on header
When I log in my account
Then I see list of cars that I can make a bidding towards
When I search a particular make and model
Then I see the cars that are only relative to that criteria
When I want to buy a car
Then I am prompted to select a payment method (for 10% of the car value)
When I want to write a feedback/comment about a car
Then I can add it at the bottom of the page of that given car with my username and
date and time on display
